DESCRIPTION AND CONDITIONS

BACKGROUND

The Jail facility is constructed on an approximate 24.5-acre site. The original facility provides 396 beds with core facilities capable of service up to 578 inmates. Daily cells were constructed to maximum or medium security standards. The facility was double bunked during the construction phase and has undergone classification facility use changes to house participants in a large work release program. The average daily inmate population is currently 1,000.

The Cities of Staunton and Waynesboro and the County of Augusta (the Authority) entered into an agreement dated June 25, 2001, to operate a regional jail facility created pursuant to the provisions of Section 52.1-91, *Code of Virginia* (1950), as amended, to construct, own and provide an adequate regional jail and to provide jail services to local governments participating in the Authority, which was created by Resolution of the participating local governments. The Authority expanded membership to the County of Rockingham and the City of Harrisonburg in an agreement effective July 1, 2015. The additional members are treated as the current members with the same number of representatives on the Authority's Board and agreed upon entrance into the three-year rolling average for allocation of net expenditures. Each of the localities appoints two members to the Authority Board. In addition to locality appointed members, the Sheriff of each participating locality is required to be appointed.

The annual operating budget of the Authority for fiscal year ending June 30, 2019 is approximately \$18 million. The budget is funded with state and local funds. No federal inmates are housed at the Jail. Member jurisdictions contribute 45% of the expenditures, which are allocated among the members based on a three-year rolling average of inmate days.

The existing Jail facility completed construction and opened in April 2006.

Middle River Regional Jail requires additional bed space due to the growth in inmate population resulting in inmate overcrowding. The Authority is evaluating several possible types of expansions, including any available off-site buildings.

The original design of the Jail facility included three expansion possibilities:

1. Enclosure of the Male Block for 95 security beds, or more for dormitory style beds;
2. Addition of an identical Male Block for up to 654 beds;
3. Addition of an identical Female Block for up to 350 beds.

A fourth option for expansion is a community corrections stand-alone building for use by the work release program which will free up space in the current facility to hold inmates whose classification requires a higher degree of secure detention (medium to maximum security). The Jail anticipates additional space to house at least 400 inmates.

This Request for Proposal (RFP) is issued for the purpose of obtaining proposals from qualified firms to provide a Community-Based Corrections Plan (CBCP), a Facility Planning Study (FPS), and seeking proposals from qualified and properly licensed architectural and engineering firms for the full range of architectural and engineering services, including but not limited to; all phases of design and construction (schematic design phase, design development phase, construction documents phase, bidding, negotiation and design compliance phase, and construction contract administration phase), and additional services as needed for the design related to the building expansion, renovation, and any building and site improvements of the existing Jail facility, and for any other facility improvements that may require like services for the Middle River Regional Jail (Jail).

EVALUATION AND AWARD

COMPETITIVE NEGOTIATION

The procurement method is competitive negotiation of professional services, in accordance with the Code of Virginia § 2.2-4302.2. This RFP indicates, in general terms, the nature of the program and services being sought for the Project. Each Offeror is to submit the proposal(s) that an Offeror believes would best suit the needs of the Jail for this Project. The specific requirements for the contents of the proposals are contained in this RFP. Offerors are encouraged to provide additional information not specifically identified as a requirement if that additional information enables the proposal to better suit the needs of the Jail for this Project.

A contract will be awarded to the most responsive and responsible offerors whose proposals are deemed most advantageous to the Authority. The Authority reserves the right to accept the proposals which in its judgment, will best serve the interests of the Authority. Following the receipt of proposals, a committee will review the proposals received and rate the proposals based on the qualifications and directly applicable experience of each offeror and individuals making up the project team. Particular attention will be paid by the Authority in the selection process to similar projects and instances where individual team members have worked together.

The Authority’s evaluation criteria and evaluation score will include the following:

	<u>Criteria</u>	<u>Score Points</u>
1.	Firm’s demonstrated understanding of the tasks and quality assurance approach/procedures.	25
2.	Qualifications and experience of the firm in performing similar projects.	20
3.	Experience and qualifications of key individuals to be assigned to the work.	20
4.	Expected time of completion.	15
5.	Overall quality and completeness of proposal.	10
6.	Degree of firm’s capability to perform tasks in-house.	10
	Total	100

When all proposals received have been reviewed and rated, the Authority anticipates that interviews will be conducted with top offerors based on the evaluation criteria. Once these interviews have been conducted, the offerors final ranking will be based on proposal content and the interview. The Authority, at that time, will begin negotiations with the firm ranked first. If a contract cannot be negotiated for Task 1 that is both economical and advantageous to the Authority, negotiations will be terminated and the Authority will begin negotiations with the firm ranked second. Negotiations will proceed with firms in their ranked order until a contract has been awarded.

In the event that a single offeror is uniquely qualified, or clearly more highly qualified than other offerors offering proposals for this service, the Authority may so state this fact, give a reasonable explanation for this decision and enter into negotiations with the uniquely qualified offeror.

The Authority reserves the right to reject any and all proposals and to waive any informality or technical defects if, in its judgment, the best interests of the Authority will be serviced as specified in Virginia Code §2.2-4319.

The Authority will provide public notice announcing its decision to award the contract by posting the Notice of Intent to Award on the Authority website, Virginia's eProcurement portal, and by emailing the notices to all offerors submitting a proposal.
