

On Saturday **May 20th**, the Maintenance department will be up grading the parking lot lights to LED Lights. The SkyTracker lift will be utilized in this process and items that could potentially fall may damage vehicles below. Any Employee working that day will need to park in the area designated as **Section A** to ensure we have enough room to maneuver the lift around and to avoid potential damage to vehicles.

On Saturday **May 27th**, the Maintenance department will be upgrading the other half of the parking lot lights. The SkyTracker lift will be utilized in this process and items that could potentially fall may damage vehicles below. Any Employee working that day will need to park in the area designated as **Section B** to ensure we have enough room to maneuver the lift around and to avoid potential damage to vehicles.
